

QUICK *WashJet*® SPRAY NOZZLES, HIGH IMPACT SPRAY

FEATURES AND BENEFITS

- High impact flat fan spray pattern with uniform distribution.
- Medium-sized drops.
- Fast and easy installation of spray tips without tools.
- Lower cost – nozzle body can be reused – only spray tips are replaced.
- Quick-connect 1/4 turn installation and automatic spray alignment.
- Safety lock feature prevents the spray tips from releasing at high pressures.
- Hardened stainless steel construction for longer wear life.
- Safer, smaller and much lighter than conventional quick disconnect nozzles.
- Standard QuickJet® spray nozzle assemblies:
 - Nozzle body, seal, spray tip.

STANDARD QUICKJET BODIES
