Whatever your application, you’re sure to find a solution for your cleaning and rinsing needs in our comprehensive line of hand-held spray guns. Options range from a gentle low-pressure spray to a high-impact, high-pressure solid stream.

All of our spray guns are durable and efficient. Many of our guns also feature:

- Specially designed handles to improve control and reduce operator fatigue
- Smooth-pull triggers to enable accurate and consistent flow control
- Textured grips to minimize the chance for slippage and accidents

A complete line of accessories compliments our spray guns. Front extensions, inlet/outlet adapters, swivel connectors and strainers are available to ensure easy, trouble-free operation.

You’ll find a wide variety of handheld spray guns in this catalog but you can also visit spray.com to see tens of thousands additional spray products. Featured products on spray.com include hydraulic spray nozzles, air atomizing nozzles, automatic hydraulic and pneumatic nozzles, tank cleaning equipment, air nozzles and nozzles for specialized operations like descaling, trim squirt, spray drying, fire protection and more. We offer nozzles in more sizes and materials than any other supplier, so you’re sure to find a product that delivers the performance you need.

**PRECISE, DEPENDABLE PRODUCT QUALITY**

Your satisfaction is important to us. Our products are manufactured to exacting standards to deliver the promised performance each and every time you order. We are ISO 9001:2008 and 14001:2004 certified. Products ship only after undergoing our rigorous quality control and testing programs. If you have any concerns about the quality of any of our products, contact us immediately. We will address your issues and take corrective action as needed.

**PRODUCTS WHEN YOU NEED THEM**

Most of our spray nozzles are readily available and will be shipped within days of your order. If you need expedited service, let us know. Our ten manufacturing locations are strategically located around the world to help ensure we can get our products where they are needed quickly and cost-effectively.

**SPECIAL REQUIREMENTS? TELL US WHAT YOU NEED**

If one of our standard products isn’t quite right for your equipment, just let us know. Customization can range from simple changes in materials to specially-designed nozzles to meet exacting performance requirements.

We work with hundreds of OEMs and provide services like these:

- Special nozzle designs
- Private labeling with unique part numbers
- Special packaging
- Customized maintenance and operating instructions
OUR SOLE FOCUS ON SPRAY TECHNOLOGY ENSURES RESULTS IN YOUR OPERATIONS

Since spray technology is all we do, we have a level of expertise that can’t be matched. Our sales engineers are factory-trained and only sell our spray products. Need to increase throughput in a coating operation? Eliminate waste or lower scrap? Cool products more quickly? Suppress dust? Minimize water and chemical use in cleaning operations? Just give us a call. With sales offices on six continents and more than 90 sales offices, we are in your area and ready to help.

WHAT CUSTOMERS SAY ABOUT OUR SERVICE

“We are very pleased with Spraying Systems Co. Wish all vendors were as good.”

“Very pleased – awesome is the best way to describe Spraying Systems Co. service.”

“A+ on service. Sales engineer responded quickly and visited my facility to review various product options for my application.”

“Rep always provides prompt answers. Knows the full product line inside and out.”

“I get more technical support from Spraying Systems Co. than any other vendor.”

“The local rep came right out – didn’t even know the size of the project at the time.”

“Spraying Systems Co. provides solutions – not just parts.”

“More knowledgeable than any other equipment company we work with.”

“We get the products we need, when we need them. Each and every time we order.”
HOW YOU CAN BENEFIT FROM SPRAY SYSTEM OPTIMIZATION

WAYS TO LEARN MORE

EXPERT ADVICE AT YOUR PLANT

No-charge spray system evaluation – Your local sales engineer will inspect your current spray operations and provide suggestions on how to improve efficiency. Evaluations can focus on a specific area such as reducing water or compressed air use, tank cleaning, automation opportunities and more.

Complimentary Lunch and Learn workshops – Select a topic, choose a date and invite your colleagues. We’ll provide lunch and an informative 60-minute session. Popular topics include Spray Nozzle Basics, Understanding Drop Size and How to Reduce Use of Costly Chemicals.

Spray demos and proof-of-concept trials at your facility – Your local sales engineer will conduct demos and tests on-site so you can see how a product will work in your environment. When operating conditions don’t allow an on-site demo or test, other arrangements can be made.

TESTS AND DEMONSTRATIONS AVAILABLE AT REGIONAL SPRAY TECHNOLOGY CENTERS

Throughout North America, we have several Spray Technology Centers. These facilities are equipped to conduct proof-of-concept tests and technology demonstrations. Seminars including live demonstrations on various topics are also conducted throughout the year. Schedules vary by region so contact your local sales engineer for information.

MULTI-DAY SEMINARS FOR ADVANCED LEARNING

An in-depth seminar on the atomization and spraying of liquids is conducted twice a year at our facility in Wheaton, IL. Attendees spend time in the classroom and our fully equipped spray laboratories and participate in spray characterization tests. More information is available from your local sales engineer and at sprayconsultants.com.
EDUCATIONAL RESOURCES

Video demonstrations and tutorials on spray.com and YouTube.com/sprayingsystems

Explore our video library and learn about new spray products and techniques; best practices in maintenance procedures; what to look for in a spray pattern and more.

Technical guides and white papers on spray.com

• *Optimizing Your Spray System*, Technical Manual 410
• *Change the Way You Spray to Maximize Water Conservation*, Technical Manual 415
• White paper series addresses topics ranging from spray automation, solving clogging problems, water conservation and more

Case studies on spray.com

More than 75 case studies demonstrate the benefits other processors have experienced through spray optimization. See spray.com/results.

HOW TO ORDER AND CUSTOMER SERVICE

ORDERING PRODUCTS

In each product section, you’ll find ordering examples. Start by reviewing the example and then create the part number by indicating the gun model, material and capacity size.

In North America
Phone: 1.800.95.SPRAY | Fax: 1.888.95.SPRAY

Outside North America
Phone: 1.630.665.5000 | Fax: 1.630.260.0842

Online ordering with a credit card is also available. Visit spray.com/ispray. You’ll find helpful selection tools and a Live Chat option for immediate assistance.

FINDING PRODUCTS

• Consult the Product Index on page i-2 if you know the name of the product
• Consult the Part Number Index on page i-3 if you have the part number. Part numbers are shown numerically and alpha-numerically

Selection assistance is also available by calling 1.800.95.SPRAY. Representatives in your local sales office will help you determine which products best meet your application requirements. (Call 1.630.665.5000 outside North America or visit spray.com to find information for the sales office in your area.)
