

OVERVIEW: WASHJET NOZZLES

- High pressure, high impact solid stream (0°) or flat fan spray pattern
- Spray angles of 5° to 80° at operating pressures from 300 to 5000 psi (20 to 345 bar)
- Uniform distribution by using internal guide vane to stabilize liquid turbulence
- Longer wear life and flow control accuracy with specially hardened stainless steel construction
- Patented design optimizes fluid dynamics to minimize turbulence and maximize spray performance

**WashJet Nozzles**

As the liquid exits through the rounded U shape of the orifice, it forms into a flat spray pattern. The distribution is even at pressures above 300 psi (20 bar).

WASHJET NOZZLE OPTIONS**MEG**

1/8" to 1/4" male conn.

**WEG**

1/8" to 1/4" female conn.

**IMEG®**

1/8" to 1/4" male conn.

IDEAL FOR:

- Grill, rocker panel and wheel well cleaning

ORDERING INFORMATION**WASHJET MEG, WEG AND IMEG WITH GUIDE VANE**

04

BSPT connections require the addition of a "B" prior to the inlet connection.

MEG, WEG AND IMEG® IMPACT DATA

Spray angle: 15°

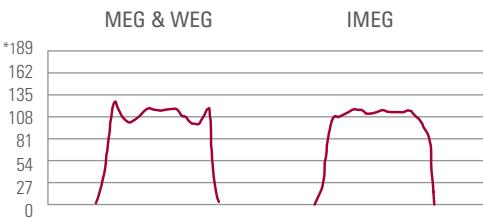

Capacity size: 04

Pressure: 2000 psig (138 bar)

Spray height: 6" (15.2 cm)

**TRANSVERSE IMPACT**

IMEG provides 25 to 100% more impact
(dependent on nozzle size and angle)

**LATERAL IMPACT**

IMEG provides more evenly distributed impact
