ALIGNMENT DEVICES FOR TRIMMING NOZZLES

MINIMIZE PAPER BREAKS AND ENSURE CLEAN CRISP EDGES WITH NEW SINGLE-PIPE AND MULTI-PIPE ALIGNMENT DEVICES

BENEFITS

- Quick and easy adjustment of UltraStream® nozzles to the exact trim position reducing downtime for nozzle alignment up to 70%
- Goose-necked pipe design prevents turbulence in pipe before nozzle
- Use with different paper widths and grades; horizontal and rotational adjustments can be made quickly and accurately in 10 mm increments to ensure precise control of nozzle location. No tools required
- Operator safety is ensured – handles and scales are located away from the nozzles
- Multi-pipe alignment devices provide redundant stream to prevent sheet breaks due to spitting or broken streams
- Alignment arms can be removed without disrupting remaining arms and nozzle locations
- Set-up is simple – UltraStream nozzles attach easily to arms

Precise control of nozzle location is easily accomplished using the rotational and horizontal scales

IDEAL FOR: EDGE-TRIMMING IN PAPERMAKING

SINGLE-PIPE AND MULTI-PIPE ALIGNMENT DEVICES

SPECIFICATIONS

Y72020 SINGLE PIPE ALIGNMENT DEVICE

For single or dual UltraStream® nozzles with or without 38170 strainers
3/8" NPT outlet; 1/4" NPT inlet
Adjustment ranges: Horizontal pipe adjustment range: 7.9" (200 mm) Pipe rotational adjustment range: ± 40°
Material: Stainless steel
Dimensions: 36.5" L x 2.4" W x 6.2" H (927 mm L x 60 mm W x 158 mm H)
Weight: 11 lbs (4.98 kg)

115450 MULTI-PIPE ALIGNMENT DEVICE

For single or dual UltraStream® nozzles with or without 38170 strainers
3/8" NPT outlet; 1/4" NPT inlet
Adjustment ranges: Individual pipe horizontal adjustment range: 7.9" (200 mm) Multi-pipe slider horizontal adjustment range: 7.9" (200 mm) Individual pipe rotational adjustment range: ± 40° Two pipe units available upon request
Material: Stainless steel
Dimensions: 29.6" L x 13" W x 6.2" H (751 mm L x 330 mm W x 158 mm H)
Weight: 33 lbs (14.97 kg)
