Producing an 80° flat spray, our new FDS-BP4 is ideal for disinfecting medium-size areas difficult to access with a wheeled unit. Workers simply fill the 4.2-gallon (16 L) tank reservoir, slip on the ergonomically-designed backpack and go. Spray pressure is generated via a manual lever. Workers simply pump the lever and spray target areas.

**BENEFITS**

- **Easy to use:** Fill the sprayer with disinfectant and you’re ready to start. Workers can use the trigger lock for continuous flow when needed. Visible fluid level scales on reservoir help workers know when to refill.

- **Designed for comfort:** Ergonomic backpack design keeps workers comfortable even when tank is full. Smooth operation and convenient placement of lever reduces worker fatigue.

- **Built to last:** Spray gun is made of durable, chemically-resistant materials; tank reservoir is abrasion-, corrosion- and impact-resistant.

**FDS-BP4 SPRAYER: CONVENIENT, QUICK, COST-EFFECTIVE DISINFECTION**

**IDEAL FOR**

- Bathrooms
- Break rooms
- Conference/meeting/lobby areas
- Manufacturing work areas
- Office spaces
FDS-BP4 SPRAYER

SPECIFICATIONS

Tank capacity: 4.2 gal (16 L)
Dimensions: 15" L x 7.5" W x 22" H (38 cm L x 19 cm W x 56 cm H)
Weight: 7 lbs. (3.2 kg) empty; 35 lbs. (15.9 kg) full
Spray tip: 80° flat spray
Flow rate: 18 gph (68 lph)
Materials: 50800 TriggerJet® spray gun – molded polyurethane

Use in areas where wetting is acceptable. Follow the instructions on the chemical label for application.
